Plain Facts Plainly Spoken.

At one time a discussion of the secret vice was entirely avoided by the profession, and medical works but a few years ago would hardly mention it.

To day the physician is of a different opinion; he is aware that it is his duty—disagreeable though it may be—to handle this matter without gloves and speak plainly about it; and intelligent parents and squardians will thank him for doing so.

The results attending this destructive vice were ormerly not understood, or not properly estimated; and no importance being attached to a subject which by its nature does not invite close investigation, it was willingly ignored.

### Young Men

Who may be suffering from the effects of youthful follies or indiscretions will do well to avail themselves of this, the greatest boon ever laid at the altar of sufering humanity. Dr. Wagers will guarantee to foreit \$500 for every case of seminal weakness or private

THRICE TESTED.

The Water Works Again Make a Show ing of What They Can Do.

Snow Storm on Broadway, Caused By the Falling Spray.

The Aldermen Satisfied.

Yesterday morning another test of the water works was given. The two previous tests were abundantly satisfactory to most of the citizens, but there were some technicalities and some excuses for those who wanted to find fault, and so the water works company, which has always declared itself willing to make tests as often and as many times as desired, was asked to give still another showing so as to place the matter beyond all chance of a grumble from anybody. Accordingly the streams were sent up again yesterday forenoon on Broadway. There were no streams put on from the highest points in the city as there was no need of that, the tests there having so far exceeded the requirements that to sets were stolen. complain of those or doubt them would make a person ridiculous.

I was suffering with Blood Poison, and treated several months with Murcury and Potachion took away my appetite and gaye of dyspepsia, and both gave me rheumatism. I then took Sarsaparillas, etc. All these Sarsaparilla mixtures have Potash in them. This made me still worse, as it drove the poison further into my system. A friend insisted I should take Swift's Specific, and it cured me sound and well of the Blood Poison, drove the Murcury and Potash out of my system, and to-day I am as well as I ever was.

all day. Dorsey for Logan.

Washington, Special Telegram, February 18.—Ex-Senator Dorsey was closeted with General Logan for three hours Sunday night, and it is known from remarks that Dorsey has dropped since, that the interview was with reference to the general's presidential candidacy. Dorsey left for his New Mexican ranch this evening, but before going called upon several of his friends here and urged them to support Logan. This is considered very remarkable in the light of what occurred at the meeting of the republican national because the streams were not sufficient, kicked lustily about there being too much water when the streams were actually playing. It was given a dry spot this time.

Edward Morgan, an old resident of Boone county, died suddenly a few days ago, while sitting in a chair. He was 76 for the efficient service he rendered in securing a republican vistory but convention committee. There Logan introduced a resolution thanking Col. securing a republican victory, but making no mention of Dorsey's services, which were a hundred times more effective than any Hooker rendered. This was intended by Logan and was ac cepted by Dorsey as a censure, and at the time the latter resented it as such,

given him pecuniary assistance. Dorsey has frequently said that he would give \$100,000 to defeat Arthur, and as he is quite flush with money since he sold half of his ranch to John B. Alley, it is believed that Logan will enjoy the benefit of som part of that sum.
